1 Stakeholder engagement

Key topics and concerns that have been raised through stakeholder engagement, including:

- How the organization has responded to those key topics and concerns, including through its reporting
- The stakeholder groups that raised each of the key topics and concerns

STAKEHOLDER GROUP	ENGAGEMENT (102-43)	KEY CONCERNS (102-44 I)	RESPONSE (102-44 II)
National governments and customers	Close dialogue with national governments is a natural part of our operations and our projects often involve regular dialogue. This dialogue is usually conducted by our project development team or community liaisons.	The main concern of governments in host countries, that will often also be our customers, is local impacts and value creation, which usually includes the economic value of the projects, increased access to energy, the potential for direct and indirect job creation.	Refer to chapter 3 in the sustainability report
Local government and communities	A social impact assessment is conducted as part of the planning of all projects and based on this a plan for stakeholder engagement is developed. Scatec Solar emphasizes continuous dialogue with local and regional communities in order to manage and meet expectations. A dedicated community liaison officer (CLO) is appointed to all our locations.	The main concern of local governments and communities is also local impacts and value creation, specifically job creation, local content and education/training.	Refer to chapter 3 in the sustainability report
Co-investors and partners	A detailed dialogue with regards to expectations is the starting point for all partnerships, and detailed in our agreements. Depending on the partnership we keep close dialogue with our partners.	Co-investors and partners are concerned that we are a trustworthy business partner that applies international best practice standards such as the IFC Performance Standards and the Equator Principles in order to manage environmental and social impacts. Investors with a specific impact investment focus are also concerned with the local value creation, and promotion of green energy. Some of our partners are also concerned with our ability to promote Norwegian exports.	Refer to chapter 2 and 3 in the sustainability report
Financing partners	Financing partners are mainly engaged prior to providing capital, and often have very specific requirements with regards to how environmental, social and governance factors are assessed and managed.	Financing partners also focus on our business conduct and efforts to ensure that we are a trustworthy business partner. Local financiers and financiers with an impact focus are also concerned with our local impact and value creation in terms of for example access to energy and job creation.	Refer to chapter 2 and 3 in the sustainability report
Shareholders	Existing and potential shareholders are engaged on a regular basis and often express their concerns and expectations directly with top management.	Shareholders are concerned with the ability to create value in the short and longer term and governance aspects such as anti-corruption and being a trustworthy business partner.	Refer to chapter 2 in the sustainability report
Employees	Our employees make up our company and who we are.	Many of our employees are proud of our social and environmental impact through promoting renewable energy and our ability to demonstrate local value creation. Employees are also concerned with own working conditions, health and safety, and opportunities to develop competencies and career path.	Refer to chapter 1, 2 and 3 in the sustainability report
Contractors	Contractors concerns are heard as part of project they are involved with and our contractors are considered as if they were our own employees when on our sites.	Contractors that work on our projects are concerned with their working conditions, fair wages, health and safety and opportunities to develop competencies.	Refer to chapter 2 in the sustainability report

STAKEHOLDER GROUP	ENGAGEMENT (102-43)	KEY CONCERNS (102-44 I)	RESPONSE (102-44 II)
Norwegian government and regulators	The Norwegian government is engaged through the various institutions that are interested in our efforts in Norway and in other countries.	The Norwegian government regulates our efforts and is also interested in supporting the positive impacts of our efforts in Norway and abroad.	Refer to chapter 1 and 3 in the sustainability report
Suppliers	Supplier visits are undertaken each year to monitor and establish a platform for good dialogue and feedback.	Our suppliers are concerned with fair pricing, working conditions, and health and safety.	Refer to chapter 2 in the sustainability report
NGO's	NGO's that represent local communities are engaged through each phase of the project. Environmental NGOs in Norway are engaged through collaboration with regards to promoting renewable energy.	NGOs in the local communities are concerned with our ability to create local value. Norwegian environmental NGOs support us in our efforts to promote renewable energy.	Refer to chapter 1 and 3 in the sustainability report

1.2 Our sustainability priorities

The material sustainability topics for our company were defined based on an assessment of key stakeholder expectations, the significance of social, economic and environmental impacts and the relevance to our strategy. The mapping of stakeholders' expectations was based on results of the ongoing stakeholder dialogue that is part of daily business on the ground when planning and executing projects, as well as at the corporate level with stakeholders such as investors,

regulators and financiers. This information was collected and structured through interviews with key internal stakeholders. The significance of social, economic and environmental impacts was based on an assessment of impacts through the value chain in the countries where we operate.

1.3 Our sustainability framework
