Global commitment: Became a signatory to the UN Global Compact to reinforce our commitment to its ten principles relating to labour conditions, human rights, environment and anti-corruption

Climate reporting: Preparing for reporting to the CDP (Carbon Disclosure Project) in 2019

2018 has been a year to challenge our company to move closer to best practices in sustainability reporting. We want to make it easier for our stakeholders to evaluate our sustainability work and performance through more relevant and consistent reporting. We continue this effort in 2019.

We pursued several new global initiatives in 2018, including the UN Global Compact and the Carbon Disclosure Project (CDP).

We also spent considerable time engaging with several key stakeholders including partners, shareholders, lenders, and employees to make sure we have a clear understanding of their concerns and interests regarding sustainability.
